

## GARFIELD DISCUSSES RESIGNATION WITH SENATE COMMITTEE

**Asserts President Wilson's Plan For Settlement of Coal Strike "Fundamentally Wrong as Matter of Government"—Does Not Believe Public, "the Chief Party at Interest", Should Be In Minority on Wage Arbitration Commission.**

WASHINGTON, Dec. 13.—Principles underlying President Wilson's plan for the settlement of the coal strike, accepted by the miners are based "fundamentally wrong as a matter of government" Dr. Harry A. Garfield, federal fuel administrator until today, told a hastily assembled sub-committee of the senate tonight. His resignation, sent to President Wilson, because of his views was accepted today with those of one or two of his associates he said.

While discussing with some freedom "a cleavage in the cabinet" caused by strike settlement negotiations, Dr. Garfield withheld answers to questions by Senator Frelinghuysen, Republican, New Jersey, chairman of the sub-committee on matters he regarded as touching confidential intercourse with his former associates during the strike period. He adhered to his refusal the Senator Townsend, Republican, Michigan, and Senator Myers, Democrat, Montana, joined the chairman in urging replies and refused to furnish a copy of his letter of resignation, which he indicated had explained his views to the president.

Senator Frelinghuysen intimated that Attorney General Palmer and other officials connected with the strike settlement would be called later.

"My objection," Dr. Garfield said of the settlement plan, "goes to the point that the commission which I understood will be set up to decide wages and prices composed of three members, one to be a miner, another to be a coal mine operator and the third to represent the general public. Under it, the public, which is the chief party at interest would always be in the minority."

"Has it been your experience with the coal industry that employees and employers might have a common interest in increasing wages and costs and passing that increase on the public in prices?" Senator Townsend asked.

"They may have that common interest," Dr. Garfield responded, qualifying his answer by saying that he was not charging that this would be the necessary result.

**Knows President's Mind.** "I believe I represent the real opinion of the president in the matter," he said later, "that is, if I were able to see him and talk it over, because I know his mind."

Dr. Garfield explained that he thought members of the cabinet were standing with him in his suggestion of a 14 per cent increase in wages, and an advisory commission to review the facts from which he derived the 14 per cent clause. When this was refused, he added, he thought the question was "going to be fought out."

Dr. Garfield would not produce a telegram sent him by Attorney General Palmer, confirming that understanding for which he was asked.

Discussing proposals which he had submitted to the cabinet, Dr. Garfield said: "I had no power under the Lever act to fix wages, but did have power to fix prices and the determination of reasonable prices involved finally a determination of reasonable wages. I drew up a statement of principles which I thought should govern the determination of reasonable wages and submitted that to the cabinet."

"They were with you on that statement?" Senator Frelinghuysen asked.

"Yes, except as to the second of the principles stated," Dr. Garfield responded. "That was one which said the average wage of workers in the industry ought to be taken as a guide in fixing increases allowed to meet the cost of living, and not the wages of a single group. Secretary of Labor Wilson desired the increases so given to be estimated on the wages of pick miners."

"What was your objection to that?" Senator Townsend asked. "Wanted 178 Per Cent Increase." "Basing the increase on the wage of pick miners," Dr. Garfield said, "would have resulted in securing an average increase of 179 per cent in wages in the industry over the period since 1913, when the secretary of labor conceded that the increase of cost of living had been only 79 per cent."

"Some members of the cabinet," Dr. Garfield said, supported him and some the secretary of labor, but all were in agreement on the balance of the proposal. He had finally taken the responsibility of putting thru his settlement suggestion without securing a unanimous agreement of the cabinet.

Under insistent questioning, Dr. Garfield said he had not talked with John L. Lewis, acting president of the mine workers and William Green, their secretary on the flying visit made by those officials to Washington a week ago when the strike settlement was submitted.

## ARGUMENTS HEARD

For Diplomatic Recognition of the Irish Republic

CONDITIONS ARE BAD

**Bourke Cockran Asserts Conditions in Ireland Worse Than They Were in Cuba When U. S. Intervened There.**

WASHINGTON, Dec. 13.—Arguments for and against diplomatic recognition of the Irish Republic were continued today before the house foreign affairs committee which is considering a bill to appropriate funds to send diplomatic and consular representatives accredited to the Republican government. Headed by Justice Daniel F. Cohalan of the New York supreme court, representatives of various Irish organizations in this country told the committee that such a recognition not only would follow out the self-determination pledges of President Wilson, but would stabilize the struggling republic and convince Great Britain that her domination in Ireland must be surrendered. In closing the argument Bourke Cockran of New York declared conditions in Ireland "infinitely worse" than they were in Cuba when the United States intervened there.

Opposing the bill was George L. Fox, of New Haven, Conn., who continued the speech he began yesterday in general denial that the Republican government was functioning sufficiently to deserve recognition. He asserted that the movement did not have the united support claimed for it in Ireland, and that many stories of mistreatment of the Irish by British authorities were myths.

A big crowd again was attracted by the hearing and there were frequent bursts of applause.

"If any member of this committee," said Mr. Cockran, "were to make in Ireland a fourth of July speech advocating the principles of the Declaration of Independence you would be put in jail. Altho it is a country free of crime than any other in the world, there are more people in jail than anywhere else and the crimes with which they are charged are the very things you celebrate as virtues."

This situation, he said, existed in Ireland, the speaker said since the Norman conquest. It was evident, he added, that "England can never govern Ireland in any other way."

Asked of he favored war in case England took offense at passage of the bill, Mr. Cockran says his reply was like that of Lincoln before the Civil War when he said, "let us not be frightened by threats of danger to our country and dungeons for ourselves."

"That is my answer," repeated Mr. Cockran, "to a question of what may follow an act of justice by the American people."

Mr. Cockran said diplomatic recognition would be a "most formidable step towards Irish freedom."

Arguing that congress has precedents for such action, he cited the policy of the United States toward Cuba, Porto Rico and the Philippines and asserted that Sinn Fein courts were functioning in all parts of Ireland, except Belfast and Dublin.

"This is the answer of whether there is a de facto government, he said. "They are settling every dispute and functioning as no other government in Europe. The Sinn Fein courts yield justice and the whole population is yielding to these courts."

For three centuries, Mr. Cockran said, British laws had denied Irishmen and ownership and kept them in poverty. No action was taken by the committee, which adjourned with the announcement that the legislation would be taken under advisement. During the session Judge James E. Deery, of Indianapolis, National president of the Ancient Order of Hibernians told the committee that the order stood for independence for Ireland.

**Return to Normal Soon.** Indianapolis, Ind., Dec. 13.—Early return to normal activities by business and transportation was forecast today with receipt of orders from the railroad administration restoring normal operation of railroad and interurban trains and permitting retail business houses to resume their usual hours. Reports from the Indiana coal fields showed that most of the miners who have been on strike have resumed work and some mines reported almost capacity outputs today. Department of justice officials here today practically completed their plans for presenting to a special grand jury next week their charges of violation of the fuel control act and anti-trust laws by coal mine operators and miners.

The investigation will start next Wednesday.

## ASKS FOR FIGHT WITH MIKE O'DOWD

**BISBEE, Ariz., Dec. 13.**—Frank Loughery, matchmaker of the Bisbee Athletic Club, has received a letter from Al Lippe, manager of Jeff Smith, asking for a finish fight with Mike O'Dowd, middle weight champion of the world, at Naco, Sonora, Mexico. Smith consents to give O'Dowd the entire purse for the privilege of meeting. O. S. French and John Towney, local promoters, have secured permission from the Mexican authorities to hold the fight in Naco.

## EASTERN SCHOOL WINS GAME 6 TO 3

**MARBLEHEAD, Mass., Dec. 13.**—Marblehead High School defeated Proviso High of Maywood, Ill., today 6 to 3, in an inter-sectional football game. A forward pass to Tansey gave the local school a touchdown for its only score and a field goal by Weidenschied, kicked from the 30 yard line counted the visiting school's points in the last period.

## REACH AGREEMENT

**Trieste, Dec. 13.**—It is announced unofficially that an agreement between Gabriel D'Annunzio and the Italian government has been reached. D'Annunzio, it is stated, will leave Fiume immediately, as well as his troops, who will be replaced by regulars.

## MOTION PICTURE PRODUCER AND ACTORS LOST AT SEA

**BULLETIN**  
LOS ANGELES, Cal., Dec. 13.—The last word received from David W. Griffith, motion picture producer for whose yacht submarine chasers and airplanes were searching tonight off the coast of Florida, was contained in a telegram dated "Nassau, Dec. 12," received early today. The telegram which was addressed to Miss Agnes Wiener, director of the Griffith Studio here said Griffith expected to be in New York Christmas.

**MIAMI, Fla., Dec. 13.**—Submarine chasers and airplanes are searching for the yacht Grey Duck which left here Wednesday for Nassau with David W. Griffith, motion picture producer, and a party of thirty six motion picture actors, camera men and others. Advice received here say the party has not reached the Bahama Island capital. The yacht's motors were known to be giving trouble when the Grey Duck left this port.

The Grey Duck left here Wednesday morning and was due at Nassau at nine o'clock that night.

**Well Known Screen Actors on Board.**

New York, Dec. 13.—Members of the theatrical profession showed the keenest interest tonight in reports from the south of the missing yacht Grey Duck with David W. Griffith and his party on board. The uncertainty was increased when it was reported that Richard Barthelmess, widely known screen actor was included in the list. Included here say the party has not reached the Bahama Island capital. ## THE PEACE TREATY

First Move Toward Breaking Deadlock Comes Suddenly

KNOX RESOLUTIONS

**Senator Asks Ratification of Pact So Far As It Would Establish Peace Between U. S. and Germany**

WASHINGTON, Dec. 13.—The first definite move toward breaking the senate deadlock on the German peace treaty came unexpectedly today on the heels of nearly three hours of heated discussion of responsibility for the treaty situation.

Senator Knox, Republican, Pennsylvania asked immediate consideration for two resolutions. One would revive his former proposal for ratification of the treaty of Versailles so far as it would establish peace between the United States and Germany. The other was similar to the pending Lodge resolution and would declare a state of peace with Germany by action of congress with approval of the president.

Senator Hitchcock, Nebraska, administration leader objected to consideration of both resolutions and under the rules, the entire matter went over until next week.

Mr. Hitchcock's objections were made despite an agreement by Senator Underwood, Democrat, Alabama, prominent among Democratic leaders in the treaty contest; Senator Brandegee, Republican, Connecticut leader in the faction seeking the treaty's defeat and others to support the Knox resolution.

Senator Knox's proposals came after hot exchanges between Republican and Democratic leaders over the status of the treaty. It was coincident was reports from European capitals that the negotiations were under way towards acceptance of some senate reservations to the peace treaty, with a view to bringing America into the foreign peace conferences.

Overtures for a compromise on the treaty came from both Republican and Democratic sides. Senator Lodge declared that President Wilson must take the initiative towards reviving action on the treaty but offering to consider any suggestions with regard to the senate committee reservations Mr. Wilson might make.

Senator Hitchcock urged a compromise thru a committee of conciliation and said he "held out the olive branch."

During the discussion, however, Senator Hitchcock said he would make no motion to bring up the peace treaty until some understanding had been reached between Republican and Democratic leaders.

"The time for debate has passed," he said. "I think it would be very unwise to bring it in and have it kicked around like a football."

**Joint Resolution**  
In calling up the resolution for declaration of peace with Germany, Senator Knox changed its form from a concurrent resolution as proposed originally by Senator Lodge, to a joint resolution, requiring action by the house and also approval by the president. His ratification resolution also was altered from its original language as rejected during the previous session. As presented today it reads:

"Resolved, That the senate of the United States unreservedly advises and consents to the ratification of the treaty of Versailles insofar only as it provides for the creation of a status of peace between the United States and Germany."

The second resolution following the form of the Lodge measure proposed that congress declare "that peace exists between the United States and Germany."

Republican leaders said tonight that with the support of Senator Underwood and other Democrats for an immediate measure to establish peace with Germany and suspend action on the league and other early prospective, there was now out of the deadlock. Further discussion next week was regarded probable.

Adoption of either the Knox or Lodge resolutions, they said, would leave the Lodge reservations in their present position, establish peace with Germany and not interfere with the operations of the league except that the question of American membership would be determined later.

**BUILDING RECORDS WILL BE BROKEN**  
NEW YORK, Dec. 13.—All building records in the territory north of the Ohio and east of the Missouri rivers will be broken in 1919, according to statistics made public tonight by F. W. Dodge & Co., which show that contracts totaling \$2,332,902,000 were awarded for the eleven months ending Dec. 1, 1919, or \$700,973,000 more than in the corresponding period last year the previous high record. The central west led all the other districts for November with contracts valued at \$71,386,000.

## TO BE CANDIDATE FOR G. O. P. NOMINATION

Senator Hiram Johnson Does Not Intend to Have Candidacy Determined by Politicians in Convention.

Washington, Dec. 13.—Senator Hiram W. Johnson of California announced formally tonight that he would be a candidate for the Republican nomination for the presidency. The senator said he would make a personal campaign in every state, explaining that he did not intend to have his candidacy determined by "politicians in convention."

Plans of Senator Johnson, former governor of California he stated include a direct appeal to the electorate in each state, whether their choice of a candidate is made by convention or primary.

"I have been laid up the past weeks and I am leaving Sunday night for California," Senator Johnson's statement said. "I hope to get myself in shape in a couple of weeks longer and on my return, to enter into the presidential campaign."

**COMPLETE THREE DAY'S CONFERENCE**  
British Prime Minister and French Premier Finish Conference on International Questions.

London, Dec. 13.—(By The Associated Press.)—The British prime minister, David Lloyd George, and the French premier, M. Clemenceau, tonight completed a three days' conference on the main outstanding international questions relating to the peace treaty, principally that concerning Turkey. The American, Japanese and Italian ambassadors and French and British financial experts were called in at various times, while the Italian foreign minister, Signor Scialoja, took a prominent part.

The conference covered a wide range of subjects and a brief official statement issued tonight records that "satisfactory agreements were arrived at on all outstanding points."

So far as is known the American ambassador, John W. Davis, participated only in the Adriatic discussion. He emphatically denied the report tonight that the conference had submitted proposals to President Wilson for the revamping of the treaty and that he had been called in to discuss them. Premier Clemenceau will leave for Paris Sunday.

**URGES ALL WOMEN TO VOTE INTELLIGENTLY**  
President of National American Woman Suffrage Association Speaks at New York.

New York, Dec. 13.—Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association today urged women of all political faiths to join with the male voters "equally disgusted with the present political system," to lift the nation to a realization of the principles for which it stands. She addressed more than 1,000 women at a luncheon of the New York City League of Women Voters, an all-party organization of which she is honorary chairman.

Mrs. Catt advocated in favor of party affiliation as the only method by which the ideals in government which women stand for can be realized.

"Be independent," she said. "Take an oath with me to endorse platforms by intellect and ratify by conscience."

Mrs. Catt urged women to oppose "states" made behind closed doors and to stand for no political platforms of which they do not understand the reasons.

**CHANGES IN TENNIS RULES PROPOSED**  
NEW YORK, Dec. 13.—Radical changes in the scoring rules, foot fault code and in the association form of yelting, will be proposed at the annual meeting of the United States National Lawn Tennis association to be held in this city next February. The suggested alterations were rounded into legislative form at a meeting of the executive committee which did not until early hours this morning. The fact that the various proposals will go to the annual meeting with the general support of the committee is thought to ensure their adoption by the organization as a whole.

The most striking change is the proposal to eliminate the old system of scoring entirely and provide a 1-2-3 method that will make such a score as "15 love" only a memory.

**PREMIER FRAMES REPLY TO SPEECH**  
ROME, Dec. 13.—In his summing up in the debate on the speech from the house Premier Nitti in the chamber of deputies today declared that the government was not becoming a party to an international convention binding the future of Italy. He denied that Italy intended to associate itself with any armed intervention in Russia and said that the existence of two systems in parliamentarism would not be a source of weakness for the government. The reply was adopted unanimously.

THE SILVER LINING

With every day and every week Jacksonville and its citizens have added reasons for congratulation on events marking a new era of faith in its home. The events of the past ten days have been most

trying. The effort to adjust ourselves to daily changes resulting from the miners' strike has been met in fairly good humor by business men and people generally. No one cares to deny that the emergency created difficulties and trials that tried one's temper and patience. The trials and tribulations in the printing business were so many and so great that publishers could only console themselves by the thought that the superintendent of the local utilities company was having even a greater load of responsibility. But to do justice to a much condemned company it must be said that there are few cities in the state that have a man in that trying position that is more responsive to public demand and needs or who makes a greater effort to accede to all requests than our local man. On the job at all hours, ready to listen to complaints or hard luck stories, he has shown a large degree of energy and of optimism, and a truly "angelic" disposition, so much so that men who have known the difficulties with which he had to contend have hesitated about making very vigorous com-

plaints. Perhaps that is the reason he cultivated that "angelic" phase. When one is in doubt as to the publication of a paper next morning his temper failed and "satanic" is nearer the proper term. But of course that could only happen in a newspaper office, where a "devil" is supposed to have a permanent dwelling place. But the emergency was met. Due to the untiring efforts of the different committees of business men having charge of the fuel supply there was no suffering because of the zero weather. So far as is known there was not a family in Jacksonville, whether they had money or not, but that was supplied with fuel of some kind, and there was no instance where one tried to "hog" the supply when they were made cognizant of the situation. The men composing these committees deserve great credit for the way they handled the fuel situation. The committees were composed of busy men, who for the time abandoned their own business interests and devoted a greater part of their time to community interests. Ernest Collins, with his "community" forum, could not have set a greater example of public spirit, and devotion to "community" interests than did these men, and they should be made aware of the fact that the "community" appreciates their efforts. To them, as well as to our mayor and board of aldermen, due credit should be given. Speaking of the mayor and council suggests another evidence of the changed relations of the council and the people. An enthusiastic whist player once informed a beginner that "when in doubt, lead trumps." The council and mayor may or may not have belonged to one of the numerous card clubs in the city, but they evidently adapted the truism to read "when in doubt, refer it to the people," and this they did last week, and the result fully justified their faith. To build our filtration plant a vast amount of material must be shipped in by freight, to consolidate our lighting and pumping stations necessitates the importation and hauling of a vast amount of coal. If all this material and coal could be delivered from the car to the site of the filtration plant and on the ground at the pumping station a very large amount of money might be saved, but there has been no money appropriated by the city for that purpose and could not be before next February or March. Money could be saved by letting the contracts for a railroad "siding" or switch track at the pumping station now. But how to raise the money to accomplish that work? The mayor and council were "in doubt" and led trumps, referring the question to the people. In one hour's time citizens had agreed to advance the cash to do the work, that contracts might be let and the work proceed at once.

Each week brings us evidence that the spirit that now prompts the citizens of Jacksonville is one of mutual helpfulness and with that feeling existing we can be assured that the city is on the up grade, with energy sufficient and willingness to boost, that will carry us to greater prosperity. No, the kickers are not all dead yet, but they are in such a minority that the role is a very unpopular one. This is the Lord's Day, too cold for auto riding, the golf season and base ball are things of the past, and the moving picture shows are not open, so there is nothing to prevent you from attending church services. The churches will all be well heated and lighted, and you could do no better for yourself and your family and your friends than attend services, and pray, earnestly, for the redemption of the "kickers" in civic affairs, may they take a greater interest in politics, in purer, cleaner politics, and in all things that affect the welfare of the people. It will do you good personally.

CHRISTMAS ADVERTISING There is no question but that Christmas advertising has developed so much in these recent years that buying early is now the popular plan. The pre-holiday business is good in Jacksonville this year and merchants generally are pleased over existing conditions. One merchant whose place of business is on the square, said last night that his store had done a greater business in the month of November than ever before, and he expects December to set a new record. It is a fact too that Christmas advertising has a more definite character these days than was at one time true. The Christmas advertising represents a greater amount of work on the merchant's part than appears in the usual store advertising matter. Nearly every user of space finds it to his advantage to list the articles in his store that are especially adapted for Christmas offerings. Many are the people nowadays who scan the newspaper advertisements for Christmas suggestions. They find these suggestions which would otherwise

not occur to them. Merchants recognize too that people read pre-Christmas advertisements even more carefully than they do store publicity at other seasons of the year. Newspapers can with good form carry what might ordinarily seem an excess of advertising at Christmas time because of special news value. It is because merchants know that readers pick up their papers in a spirit of inquiry and mentally run over the long list of Christmas articles advertised, confidently hoping there to find the answer to the perplexing question: what shall I give her? or what shall I give him? Just as the "buy early" campaign has accomplished their result and made the Christmas business more satisfactory and comfortable for the store owners and their clerks, just so the Christmas advertising of the stores helps in a definite way in bringing about a satisfactory and helpful distribution of Christmas offerings. Everybody who thinks about it will admit that Christmas newspaper advertising helps in making the gift appropriate for the recipient.

Rippling Rhymes By Walt Mason

The Wolf. The wolf is at the door, my friends, the wolf is at the door; by day and night his howl ascends, likewise his snarling roar. I might have buckled down to toil and kept the brute away, but such a scheme as that would foil my plans for endless play. Before the war I used to work, and go home tired at night; but now all thoughts of labor I shun, there's too much fun in sight. I still have gasoline to burn, I laid in quite a store; and when that's gone perhaps I'll earn the coin to buy some more. For modern man must have his gas, and tires, with one to spare, altho his children live on grass and have no shoes to wear. Oh, there are movie shows by night, and jamborees by day, and he's indeed a feckless wight who doesn't romp and play. The wolf is at the door, I wot, the wolf is at the door, and I've no mutton in the pot, nor credit at the store. My wife insists the outlook's drear unless I earn some dimes, but work is something we've outgrown in these enlightened days. The wolf is at the door, I woen, he haunts the old shebang; but I have still some gasoline so let the wolf go hang.

NO ILLINOIS COAL IN HANDS LOCAL DEALERS

Shipments Hoped For Early This Week—Eastern Fuel Gives Protection—Edward Doolin Had Narrow Escape From Gas Explosion.

Altho the weather yesterday was decidedly wintry, there were few orders placed with local dealers for eastern soft coal. Consumers generally along with dealers, are hopeful that before many days coal will be coming into Jacksonville from the Illinois fields. The prices are expected to be the same as those which prevailed before the strike and so very much lower than the price it is necessary to charge for eastern coal. Besides this matter of price, much of the eastern coal is so fine that it resembles screenings and most people have a difficult time in using it in a satisfactory way in their stove or furnaces.

This eastern coal is full of gas and is much more oily than the product from Illinois mines. It cannot be handled in the same way as Illinois coal and the consumer who fills the fire pot of his stove or furnace full of this coal is pretty apt to get into trouble. Spreading a thin layer of coal over the fire seems to be the best way to secure efficiency and to avoid smothering or explosion.

Gas Exploded. At a late hour Friday night the too lavish use of this kind of coal in the Journal hotel caused an accident which might easily have ended disastrously. As it was, the explosion of the gas blew open the feed door and three smaller doors above it and for a moment flames flashed for several feet above the boiler.

Edward Doolin who had just placed coal in the fire box, was standing near the door when the explosion came. The force was sufficient to hurl him a distance of eight or ten feet. The flash of flame singed his eye brows and the hair below the cap he was wearing. His clothing was ignited in a dozen different places. Fortunately the fire in the clothing was quickly extinguished and Doolin did not open his eyes until the ashes all over his face had been washed away and oil applied to the eyelids. Yesterday there was some little pain in his eyes but otherwise he was no worse off for the unfortunate experience.

The heating apparatus was not damaged, but it goes without saying that only small quantities of this Pennsylvania coal were used in that boiler yesterday.

It should be said in passing that in many instances excellent results have been reported from the use of this Pennsylvania product. The coal as it is mined is small, having the appearance of Illinois screenings. Fired lightly it produces a larger per cent of heat units than come from the same weight of Illinois coal.

The Chicago & Alton railroad as previously noted has fifteen cars of coal on track, held here in the name of W. C. Steffa, car service agent of the road. This coal is under the supervision of D. C. Diltz, local agent, and any application for a car will be taken up immediately with Mr. Steffa and a prompt reply secured. If coal begins to come in from Illinois fields there will probably not be demands for this coal, but otherwise it will be necessary to use it. While as stated above, the demand for eastern coal yesterday was very light because of the price and the expectation of early shipments of Illinois coal, it has been a great benefit to the public to have this large supply of coal on track here.

Gave Protection. The fact that the coal was available has given the public a sense of protection. Further, this coal has lessened the demand. When people realize that the supply of coal is very short there naturally comes a feeling of apprehension and fear. The average consumer looks at his pile of coal and imagines that it contains a great many less bushels than is actually true. In this way a demand is created for coal in addition to that which is actually needed by consumers who are short. It is just like the condition which happened some years ago when depositors were insistent upon securing gold from their

Declares Successful Employment of Labor Will Rest on Recognition of Rights.

New York, Dec. 14.—Successful employment of labor will rest on recognition of rights, declared Charles M. Schwab, chairman of the board of directors of the Bethlehem Steel Company.

Speaking tonight at the annual dinner of the Pennsylvania Society of which he is president, Mr. Schwab declared he did not think the world and especially America would be overturned by Bolshevism, and that "the more the Bolsheviks talk and threaten destruction the more will our people see thru the sophistry preached to them and stand adamant for America continuing to be a land of law, of order and of opportunity."

"We hear a great deal about the labor problem," continued Mr. Schwab. "I am one of those who doubt believe much in theorizing about labor and capital. I do not believe the world is going to be suddenly changed by any academic solutions or of resolutions about the labor question."

"I believe that the first and prime need of every man engaged in industry is to get and to keep his own house in order and to secure the confidence and the enthusiastic loyalty of his own men."

"What the laboring man wants, as I see it, is above all else, recognition appreciation and fellowship. He wants to be treated as a man of flesh and blood."

"I believe in profit-sharing not the kind of profit-sharing which consists of mere bonus paid out of the total profits of the year and added to the man's wages for the year. That is merely an increase in wages and has no direct relationship to a man's own work."

What I believe in is that a man shall have a direct share of the profits derived from the particular unit of work he himself is doing."

**SAYS COURTS SHOULD SETTLE LABOR DISPUTES**

Senator Kenyon in Speech Asserts Industrial Courts Must be Provided.

New York, Dec. 13.—Industrial courts to settle industrial labor disputes, must be provided by the government, Senator Kenyon of Iowa, declared in an address before the lawyers' club here today.

Strikes are no longer a private fight between employer and employee he said. The American public, the third party to the consideration, does not propose, he added to stand for strikes—"a relic of industrial barbarism."

"We must have tribunals where these matters can be settled," Senator Kenyon asserted. "We must establish courts of mediation, conciliation and compulsory investigation and their decisions must be backed up by public opinion which will enforce them. The government must provide some means of solving these questions."

The employer who works his employees 10 to 12 hours a day in the interests of large dividends, "needs as much Americanism as the Bolshevik," the senator declared.

The congressman who goes to Washington for the most number of votes he can roll up also needs Americanism.

"America sleeps until the eleventh hour," he continued. "But in the eleventh hour it awakens and has more potential power than any force on earth. It is time for America to wake up. We must meet the education of the Bolshevik with our own education. We must meet their purposes with ours. We must meet their speakers with ours. Education is the only thing which will accomplish this."

## Deaths

## Cox.

C. J. Cox of Springfield died at the home of his sister, Mrs. A. B. Opperman, 334 South Mauvais-terre street at 3:30 o'clock Saturday morning. Mr. Cox had been ill for several months. For a number of weeks past his condition has been regarded as critical and death was not unexpected and came as a relief to his suffering.

Deceased was born in Brown county about 58 years ago and came to Jacksonville when he was five years of age. He grew to manhood here and when John Cherry erected the large livery barn in East Court street, Mr. Cox became his manager. He remained in the position for sixteen years and gave excellent satisfaction.

After resigning from his position he went to Decatur where he engaged in business. He did not remain in Decatur long but removed to Springfield where he was engaged in the new and second hand furniture business, in which he met with success.

He was united in marriage to Miss Ella Large of this city. She preceded him in death five years ago. He was again married two years ago to Mrs. Mae Perry of Springfield who survives. He also leaves two sisters, Mrs. A. B. Opperman and Miss Emeline Cox of this city, and one brother Barton Cox of Kansas.

Mr. Cox was a man who enjoyed a wide acquaintance in this city and Springfield. He was a member of Pawnee Trobe No. 66 Improved Order of Red Men and was a man highly regarded by all who knew him.

The remains were taken to Springfield Saturday evening where funeral services will be held and interment made.

Mr. J. C. Austin and son James Clifford have returned to their home in Nashville, Tenn., after a visit with Mr. Austin's mother, Mrs. Rantz in Waverly.

C. P. & ST. L. SHOPS  
WILL OPEN MONDAY

Will Start With Full Force And Work Full Time—Have Been Closed For a Week Because of the Coal Shortage.

George W. Imgrund, superintendent of the C. P. & St. L. shops announced Saturday evening that the shops would resume work Monday. The shops will work full time with a full complement of men.

The shops were closed a week ago because of the coal shortage. Since that time only enough men have been kept at work to keep the engines on the passenger and freight trains in repair. Owing to the curtailment of this service only a few men were required.

There is a large amount of work on hand and it is probable there will be no further layoffs for several months unless something unforeseen occurs.

The ladies who receive FURS from FRANK BYRNS Hat Store will be pleased.

114 EGGS A DAY NOW  
INSTEAD OF 25 A DAY

That Means About \$105 Extra Income Per Month for Mrs. Ropp.

"I have 200 hens, including late pullets not old enough to lay, and had been getting 25 to 30 eggs a day. Then I tried Don Sung in the feed, and am now getting 107 to 114 eggs a day."—Mrs. Essie B. Ropp, R. R. 2, Littlefield, Ind.

Mrs. Ropp got this increase of 7 dozen a day in the middle of winter. At 50 cents a dozen, 30 days a month, this makes \$105 extra income a month. The Don Sung for her 200 hens cost her about \$2.50 per month. You can see how well it paid her, and we'll guarantee it will pay you.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, tell us and your money will be promptly refunded. Don Sung (Chinese for egg-laying) works directly on the egg-laying organs and is also a splendid tonic. It is easily given in the feed, improves the hens' health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer for 30 cents for a package by mail. Burch Drug Co., 233 N. 14th St., Indianapolis, Ind.

### DETROIT CLUB WILL TRAIN IN GEORGIA

DETROIT, Mich., Dec. 13.—The Detroit club of the American league will do its spring training at Macon, Ga., again the coming year, it is announced by President Frank J. Navin.

There had been reports to the effect that the Tigers might be taken to the Pacific coast, but President Navin has definitely denied these, declaring that although major league clubs have drawn all on the coast the financial income on the return trip is likely to prove uncerain because of higher conditions.

Furthermore, President Navin promised another tour with Boston Nationals next spring. It is anticipated that these clubs will begin their homeward march from the Georgia training grounds with much the same schedule followed last year. It is understood the Detroit club was invited to tour with the Boston Cincinnati Nationals next spring, but the offer was declined despite the likelihood it would prove a paying proposition.

### THREE LETTERS AT TEXAS SCHOOL

AUSTIN, Tex., Dec. 13.—Winning his "T" at football this year George McCullough, halfback for University of Texas Longhorns, became the twelfth man in the history of the university to win three letters.

McCullough made his first "T" in basketball in 1918. Early in 1919 he was named as one of the best intercollegiate basketball guards and obtained the second letter.

The first Texas varsity man to make the coveted three letters was T. S. Jones of the 1895 football team. Track and basketball are his other letter activities.

### ANS TO BUILD UP PITCHING STAFF

CHICAGO, Dec. 13.—Charles A. Comiskey, owner of the Chicago Americans, is laying plans to build up a strong pitching staff with young material for the 1920 season. He has taken his first step in this direction by signing Milton Steemgrate, a semi pro of Oakland, Calif. He is a young right hander, weighs 170 pounds and has been so successful that players and scouts strongly urged Comiskey to get him.

### WILL MANAGE COLUMBUS TEAM

COLUMBUS, O., Dec. 13.—Bill Clymer, who managed a championship baseball team here a decade ago, probably will be manager of the Columbus American Association baseball team in 1920.

Joe Tinker, president of the club, announced that he is negotiating with Clymer and expects to sign him soon. Tinker also is after a dozen new players to strengthen the team.

### THOMPSON WILL HEAD WABASH

CRAWFORDSVILLE, Ind., Dec. 13.—W. N. Thompson, fullback on the Wabash college football team, has been elected captain of the 1920 squad. Monograms were awarded to 17 players, ten of whom will return next year.

### TO BUILD HUGE ATHLETIC STADIUM

COLUMBUS, O., Dec. 13.—Plans are under consideration to build a huge athletic stadium costing several thousand dollars at Ohio State University.

The stadium issue was brought up at the Illinois-Ohio State championship football game, when thousands of persons were unable to gain admittance to Ohio Field, which seats a few more than 15,000. It was estimated that between 20,000 and 25,000 persons were refused admission to the Illinois.

Alumni of Ohio State are backing the stadium project, which has been given the approval of the board of trustees of the university. The alumni expect to raise the money, and will endeavor to get the state legislature to appropriate sufficient funds for the purchasing of suitable grounds.

### HARLEY MAY PLAY PROFESSIONAL BALL

COLUMBUS, O., Dec. 13.—"Chic" Harley, sensational all-American halfback on the Ohio State University football team for three years may play professional baseball next summer.

Harley, it is said, will be offered an outfield position on the Columbus American Association team. Manager Bobby Quinn, of the St. Louis Americans, recently announced that Harley could have a try-out with his team next summer of he desired.

"Chic" has not decided whether he will play professional baseball. He has announced, however, that he will not play professional football, although he has had several tempting offers of \$500 for a game.

### OSS, MINNESOTA'S STAR POINT MAKER

MINNEAPOLIS, Dec. 13.—The star of Minnesota's 1919 football eleven will probably be the leading point maker of the varsity's 1920 basketball team. This versatile athlete is Arnold Oss who, incidentally, has done the 440-yard dash in better than 50 seconds flat. Oss will also be a member of the track team.

Dr. L. J. Cooke, basketball coach, has 28 candidates trying for the first team. His squad includes three veterans, Captain Lawler, Oss, and Neal Arnston.

### PLAY LAST GAME FOR THE CRIMSON

BLOOMINGTON, Ind., Dec. 13.—Six members of the 1919 Indiana University football eleven, which completed the season with a victory over Syracuse, played their last game for the Crimson in the inter-sectional contest. They are Spencer Pope, Frank Faust, Harold Bowser, Phares Hiatt, Wesley Mumby and Chasler Wiley, who will graduate in June.

### DAVENPORT THRU WITH BIG LEAGUES

CLEVELAND, Dec. 13.—Dave Davenport, the right handed pitcher who quit the St. Louis Americans last season, is thru with the big leagues. He intends to pitch for a local semi pro. Davenport will make his home here, as he has entered the employ of a large corporation.

Rodgers, W. Virginia	Braden, Yale	Robertson, Dartmouth	FULLBACK

NEW YORK, Dec. 13.—In commenting upon the qualifications of the various players selected for his first eleven Walter Camp writes as follows in Collier's Weekly:

"The lineup of the All-America of 1919 presents the most powerful and versatile aggregation of players that has been on the gridiron for a long time. It is practically all veteran material educated in the modern game. There is no man on it who has not developed to the full, the possibilities of his position. It is a combination of strong, hard-hitting, powerful and experienced players, with a line of exceptional physique to lift and open holes; tight on defense, and with a backfield, combining speed and power in running, with strong interference for each other in a most remarkable way. It has men who can not only make forward passes but receive them. It has short and long distance accurate drop kickers, a long-distance punter and a quarterback who never muffs and who is not only sturdy but extremely elusive when once started down the field with the ball. There is also to work with him a man who is a speed demon and ever ready to take some of the kicks and run them back, thus making the most dangerous combination to the opponents.

**The Ends.**

"We have in the ends, Higgins of Penn State and H. Miller of Pennsylvania, a pair of players of remarkable speed in getting down the field and covering kicks, both of them strong in breaking up and sifting thru interference, and each an adept on receiving forward passes. Circling these ends has proven well high impossible all season. In the two tackles, West of Colgate, and Henry, of Washington & Jefferson, we have men who have practically dominated this position for two or three years and in one—West—a long distance punter of both a dry and wet ball, as well as a field goal kicker from placement. Henry's defense has been so good as to practically force the attack to give him a wide berth and his endurance is phenomenal.

**The Guards.**

"The two guards, Alexander of Syracuse and Youngstrom of Dartmouth, are the greatest pair of defensive guards that have ever been seen on the gridiron. Alexander, particularly against running plays, and Youngstrom the terror of the opponents when forced to kick. This man blocked so many kicks this season that every punter who played against him feared him and learned to take plenty of room when Young-

strom appeared in the line and even then found upon occasion that the kicks must be hurried.

**Center Position.**

Weaver, of Center College is one of the best-built men for the position of center that has ever played in the middle of the line. He is lighter in actual pounds than the usual type of center but that weight is so placed that as pivot men he can play either in the line or as roving center, and in fact combine the two, for—he will take a play on or outside tackle even when he is playing in the line. He is a good, steady passer and opens holes and drives forward, utilizing every pound of his weight. He is also very alert at jumping and spoiling short forward passes over the middle of the line. Weaver is the best converter of touchdowns into goals, having missed but one goal out of 47 tries an invaluable asset in a close game.

**Quarterback.**

"McMillin, of Center, gets the quarterback berth for his all-around utility, speed and hard-hitting aggressiveness. He works his team up to the limit of their possibilities and when he had to make the fight against West Virginia, who had just beaten Princeton 25 to 0, he showed the greatest headwork in his use of plays and with a score 6 to 0 against him so handled his men as to win in the end 14 to 6.

**The Back Field.**

"But the trio behind him would be the envy of any team—Casey of Harvard, Harley of Ohio State and Rodgers of West Virginia. Casey tied the Princeton game, coming stronger and faster when his team was practically beaten and in the last few minutes of the game, after bringing his team within scoring distance, he then received the forward pass that yielded the tying points! He won the Yale game, for he not only received the forward pass but by quick head and foot work he secured the other 18 yards necessary after he caught the ball, winding his way thru the Yale backs. He is a good forward passer, a very fast man with the ball and particularly elusive in his turning and twisting. Harley of Ohio State is a fitting mate for Casey and a star drop kicker, while we have in our tackle, West of Colgate, an ideal man for the long place kicks. Harley is also one of the hardest men in the country to stop when once started on a run.

"We complete the trip with Rodgers of West Virginia, the hard-hitting backfield man who is even more adept at throwing the pass than any man who has played this season. He can throw all kinds of passes and make them connect. In his running game he hits fiercely on and outside tackle and even when grasped goes twirling, twisting on. But above all this he is a field general who has struck the highest spot in combination of running and forward passing plays, as instanced when in the Princeton game he so used his plays and team as to run up no less than 19 points on Princeton in the first period which consisted of only 12 minutes of play! By similar plays he brought about a touchdown on Center in four minutes!

"This team would also be provided with two generals and Rogers giving the signals from the fullback position. If anything happened to Rodgers the generalship would then devolve upon McMillin a man quite competent to handle it. The advantage of having the fullback give the signals is very great in this game where the direction of the attack in the use of the forward pass depends considerably in sizing up the secondary defense of the opponents. Rodgers is an expert in this respect and by this means we should keep McMillin always fresh for his own work and runs."

### WILL HAVE SQUAD OF EXPERIENCED MEN

MINNEAPOLIS, Minn., Dec. 13.—Although the University of Minnesota football team had one of the freshest seasons in history, varsity followers are sanguine over the prospects for 1920. Six veterans will be lost, but Coach Williams will have a strong squad of experienced men to pick his team from.

The men who will not be back are Captain Lampi, Verne Williams, Theron Gerow, Walter Hartel, Carl Hanke, and Tony Tomasek. A veteran backfield will be available, however, if Oss decides to return, for Williams will have Ruben, Phillips, Regnier and Arnston. Earl Martineau, star of the freshmen eleven, is generally considered a certainty for the first team. Martineau was Ruben's teammate in their high school days.

### It is the Site of the Taj Mahal

The Taj Mahal was erected by Shah Jehan as a memorial to his wife, ages ago. It is a monument of supreme beauty and a lasting tribute of love.

To it beauty-loving pilgrims go each year to study the wondrous jewels and carvings. They go because it is Real. Every Jewel is a Real Jewel. The marble is real marble, the art is real. Therefore, it stands thru all the ages, defying time.

Do you know that a Diamond is the most perfect of all the precious stones? Time dims not its lustre, nor changes its color. It is a jewel, beautiful, everlasting; and as earth's supply is failing, its value grows in the markets of men.

Do you know that here in Jacksonville, in our store, is a collection of Diamonds which, though it may not be as large as Tiffany's, it is not inferior in quality; and further if you avail yourself of the opportunity, you can have for the asking guidance of judgment and knowledge gained by years of patient study and observation. Do you realize that this is a fact, NOT JUST TALK, that when we call a stone a Blue Gem—it is so—that if you are looking for a gift as lasting, as beautiful and as symbolic of your affection as a Diamond, you can not afford to pass us by?

Many people are considering buying a Diamond as an investment. If you are one of those, stop in and let us show you what VALUE is—it is interesting to the person spending money.

## ILLINOIS COLLEGE NOTES

When President Rammelkamp returned Thursday morning an announcement was made of new gifts to the Endowment Fund amounting to \$2000. The gifts included one of \$1000 from a member of the class of '19, \$500 from a member of the class of '17 and several miscellaneous subscriptions. The "Endowment-meter" in the chapel now registers \$42,000 on the fund. Dr. Thomas W. Smith who is serving as the assistant campaign director is busy in the east, but will probably soon come west to help in the work.

Professor J. G. Ames went to Springfield on Friday as a representative of the College in the Interworld Church Conference.

It is now thought possible that the College will be able to run until the usual Christmas holidays. The temperature during the next few days, however, will have an important bearing upon the decision of the College authorities. In the meantime, the heat has been shut off from

## WINCHESTER RURAL CARRIER BADLY HURT

Otto Henry's Ford Car Turns Over in Ditch—Carrier Pinned Under Car for Hour and Half—Odd Fellows Elect—Other News

Winchester, Dec. 13.—Otto Henry, one of the rural carriers of Winchester met with a most painful accident while on his route Saturday morning. He had covered about ten miles of his route in his Ford car when the engine failed to work on a steep hill. Mr. Henry set his emergency brake and started to get out of the machine to start the motor again. He had just reached the door of the car and was standing on the running board to get out when the brake gave way and the car rolled backward down the hill, careened to the side of the road and tumbled. Mr. Henry was caught beneath the car and pinned to the ground by the windshield. Here he lay on the ground helpless with a broken collar bone for more than an hour and a half before any travelers passed his way. Harry Quinn, son of Mr. and Mrs. Michael Quinn, discovered Mr. Henry, released him and telephoned to Winchester for help. He was brought to his home here and Dr. H. H. Fletcher called to care for him. Mr. Henry is a man of about 45 years of age and has long been a faithful member of the government service. While dressed warmly in injury together with his exposure to the cold while lying on the ground for such a period of time was a severe shock and it is hoped by his many friends here that he will improve in a satisfactory manner.

### COUNCIL WILL HOLD SPECIAL SESSION

Appropriation Ordinance Will Be Passed Monday Morning—Payment Made For Bonds.

A special meeting of the city council will be held Monday morning at 9 o'clock for the purpose of passing a special appropriation ordinance. Mayor Crabtree was notified Saturday that Bolger, Mosser & Willman of Chicago, the firm which recently purchased the bonds the city offered for sale, had deposited in the First National Bank of Chicago \$78,119. This sum includes accrued interest of \$119. This money will now be available for discharging city indebtedness to the amount indicated and warrants are now being drawn by City Clerk R. L. Pyatt.

No money can be paid out until after special appropriation ordinance has been passed with an emergency clause. In this first payment the claims of approved bills in the hands of employees and former employees will be taken care of, and in the course of a very few days all outstanding bills can be paid. As soon as the \$78,000 has been paid and the indebtedness of the city thus reduced of record, the remaining \$53,000 authorized can be issued. Only such bonds as are necessary to pay the balance due on back indebtedness will be immediately issued and the others will be issued when the improvement work has been done and bills for the same are payable.

### THE MAUVAISE TERRE

In another part of this issue some interesting local history is given about the "Mauvaise Terre" the creek which flows to the east and north of the city. The meaning of the words is given an explanation and some other interesting facts presented. The article is written by Frank J. Heintz, who is especially well versed not only in local history but also in that of this state. Mr. Heintz's library of state history includes many rare volumes and represents a vast amount of painstaking work in its collection.

### SEEK TO AID MOONEY

A number of local union men are supporters of the International Workers' Defense League. One of the special objects of this league is to secure a new trial for Mooney in San Francisco. Recently the league issued a circular commenting upon various misfortunes that have happened to Mr. Pickert, district attorney, who was active in the prosecution of the case. The league according to this circular, feels that a great victory was won when Judge Brady defeated Mr. Pickert for the office of district attorney at the November election.

### FUEL DEMANDS NOW MUCH LIGHTER

Special Committee Has Had Few Applications in Recent Days—Perry White in Office.

The fuel committee, of which J. H. Hackett is chairman and J. F. Shreve secretary, has had few requests for fuel in the past few days. The great stress for coal came to an end Thursday with the arrival of liberal shipments of eastern coal. The price of this coal is high and it is not of a quality to which users are accustomed and the demand has therefore been very light. In many instances people are living in one or two rooms of their homes in order to save fuel and also in order to make the short supply they have held out until Illinois coal is available.

During the past two days Perry White has been on duty at the mayor's office in the city building and has acted for the committee in aiding all applicants to get in touch with some dealer having coal on hand. Saturday one car of coal which was brought here by order of the fuel committee was made available for all dealers. The committee feeling that by this plan it would be certain that every person greatly in need of fuel would have the opportunity of securing it. The plan was followed also because dealers are naturally reluctant to stock up with this high priced coal and many of them were not in position to offer soft coal.

### VISITOR FROM KANKAKEE.

E. J. Howell, district manager for the Central Union Telephone Co., and now located at Kankakee, was a visitor in Jacksonville Saturday. Mr. Howell was for several years a resident of Jacksonville and always finds a warm welcome here.

In conversation yesterday he told of the recent reorganization of the chamber of commerce in Kankakee. The organization now has over 500 members with annual fees of \$25 and an experienced secretary has been employed. Mr. Howell likes the business activity of Kankakee and the friends he has found there, but still has many good words to say for Jacksonville.

Agent's Office

**Soil Survey Maps**  
The soil survey for Morgan county was completed this summer. The young men who made this survey, had some amusing experiences. A year ago one of them found his way blocked both in front and behind with automobiles containing men, who thought he was a German spy, planting disease germs in the soil. If he had not had a draft card, showing that he was registered for the draft, he would have undoubtedly been arrested by an official from a neighboring county, who did not read the papers of the survey. In another part of the county one of the young men was supposed to be an escaped patient from the State Hospital and the authorities were notified to come after him. Fortunately, one of our farm bureau members in that part of the county knew what the young man was doing and saved him further embarrassment by explaining what the soil survey was. The young man has made the maps for the county and we hope to have a set in a short time. A year ago we were furnished maps for the townships in the northwestern part and are glad that the entire county will soon be mapped so that we can make use of it in discussing soil improvement with Morgan county farmers.

**Tractor School**  
The College of Agriculture will conduct a Tractor School during the months of January and February. The school will consist of 6 one-week courses. If any of the young men in Morgan county are interested in this course, we shall be glad to furnish detailed information if they will call at our office.

**Live Stock Shipping Association**  
The Rees Farmers Live Stock Shipping Association, recently organized, is actually shipping live stock with satisfactory results. One car load brought them \$150 more than they could have received by accepting a local bid. The hogs were fed enroute to market and actually weighed more at St. Louis than they did at Rees Station. The County Agent will be very glad to explain to any interested body of farmers how to organize a livestock shipping association.

**Hessian Fly Conditions**  
W. P. Flint informs us that the infestation by the Hessian Fly, in the northern part of the state, is about the same as last year. In Central and Southern Illinois, wheat seeded 10 days before the fly free date has from 90 to 100 per cent infestation. In some counties wheat seeded on the fly free date is somewhat infested due to the fact that the wheat came up early. Wheat seeded 4 or 5 days after the fly free date is clean. It may pay to leave fields of wheat 90 per cent infested if the plants are putting out a vigorous growth of tillers. Should the weather favor the development of the spring brood, wheat will be heavily infested in the spring wheat regardless of the time of seeding this fall. It should be borne in mind, however, that this spring damage could have been avoided had all the wheat been seeded at the proper date this fall.

**Election of Officers**  
The members of the Advisory Council of the Morgan County Farmers' Club, are reminded of the annual election of the officers at the Farm Bureau headquarters at 2 p. m., Monday, Dec. 15th. It is hoped to have a 100 per cent attendance of the members of the Advisory Council at this meeting. Where a member cannot be present he is requested to send a duly authorized proxy.

**Beef Cattle Meeting**  
W. H. Smith of the College of Agriculture, will discuss the subject of Beef Cattle Feeding at a meeting at Jacksonville at 2 p. m., Saturday, Dec. 20th, instead of December 16th, as previously announced. We should like to have a representative beef cattle man present from every community in Morgan County.

**Home Economics Institute**

## INDIGESTION

At once!—"Pape's Diapepsin" corrects your Sour, Gassy, Acid Stomach—Relief awaits you!

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. When your meals don't fit and you feel uncomfortable, when you belch gases, acids or raise sour, undigested food. When you feel lumps of indigestion pain, heartburn or headache, from acidity, just eat a tablet of Pape's Diapepsin and the stomach distress is gone. Millions of people know the magic of Pape's Diapepsin as an antacid. They know that indigestion and disordered stomach are so needless. The relief comes quickly, no disappointment! Pape's Diapepsin tastes like candy and a box of this world-famous indigestion relief costs so little at drug stores. Pape's Diapepsin helps neutralize the stomach acids so you can eat without fear.

## "THEN LET THE WORLD END"

Seattle Boy Wants Christmas Pushed Up So Dates Won't Conflict.

Hazel Benjamin in the Seattle Post-Intelligencer.

In an envelope marked "urgent" the following letter to Santa Claus found its way to the Post-Intelligencer Christmas editor. The writer apparently is a boy with original ideas, which include spelling. He signs himself "Chuck." The letter:

Dear Santa Claus: Gentlemen: Do you think it would be possible, since this may be the last one, to have Xmas December 15 because the end of the world is coming from sun spots on December 17 my father says, who is a fire insurance seller, of no mean ability. I don't know exactly what a sun spot is but our teacher, who is in the fifth grade, says it is very serious, something like a boil on the sun. If a boil on the sun is like the one on the neck from which I suffered intense last summer so I couldn't go in swimming don't you think it would be better to have Xmas say a week earlier? Having it on the 15 will make it possible for everybody to get over their candy and Xmas dinners before the end of the world, which my father says is going to be something we can't afford to miss and can't tell our children about. It does seem kind of too bad to waste Xmas because of the end of the world.

This is only a suggestion, but if you should see fit to act favorably on it I might tell you, since I may not have time to write any more, that I would like," etc., etc.

"I guess I was about the happiest man in all Illinois when I began to regain my strength after I started taking Tanlac, as I had about given up all hope," said Will Chambers, a well known farmer who lives on R. P. D. Hanna City, Ill.

"Last winter I had a severe attack of the flu" which left me in a terribly run down and weak condition," he continued, "I lost thirty pounds in weight and was so thin I was scarcely more than a frame, and was unable to do any work at all. I was in bed a number of weeks—I do not remember just how many—and when I got up I could hardly get about. Even after I got so I could walk out as far as the barn I was so weak I don't believe I could have lifted an ear of corn, and I stayed in this shape for month after month, and nothing I did seem to do me any good. I had no life or energy and was just dwindling away all the time and had about made up my mind I was going to die, and would lie awake nights worrying over my condition. My wife was worried as much as I was, as she could see I was gradually growing weaker and weaker.

"One day a neighbor was in to see me and said he had an attack of the flu" and it had left him in about the same condition I was, and that he had taken Tanlac and it had brought him out, and advised me to try it. Well, my wife went to town and got me three bottles to start on, and I wish you could have seen the way I began to improve when I started taking it. I got better and better every day, and it was only a short while before I was doing all my work, and as soon as I felt as well as I ever had and today I am stronger and feel better in every way than I have in years. I have gained thirty five pounds in weight, five pounds more than I lost when I had the flu. I always keep a supply of Tanlac in my house and never expect to be without it, and I give Tanlac the credit for my good condition and would advise others to take it if they were in the fix I was in."

TANLAC is sold in Jacksonville by Coover & Shreve; in Meredosia by Mr. R. B. Field; in Murrayville by M. E. Gilbert; in Waverly by Wyle Drug Co.; in Woodstock by The Hoy Pharmacy; in Chapin by John Onken & Bros., and in Alexander by Frank J. Kaiser.—Adv.

## Natski Blood Purifier

Possibly you are one of the many persons that have suffered years with Rheumatism—possibly you have tried many remedies without avail. There's a man in Moweaqua, Illinois, who has discovered the relief for rheumatism. This claim is not without proofs, for below we print three of the many letters we have received about Natski Blood Purifier. Read them each thoroughly:

### ALL ACHES AND PAINS GONE

Read What this Moweaqua Man Says Natski Blood Purifier Did for Him

Moweaqua, Ill., Aug. 23, 1918.

Having suffered with rheumatism for two winters and having tried several physicians and different kinds of medicine, Natski Blood Purifier was recommended to me on a "money back" guarantee.

After taking seven bottles of this medicine have not been bothered with a rheumatic ache or pain since

BERT TOLSON.

### ASSUMPTION, ILLINOIS MERCHANT IS CON- VINCED

To Whom It May Concern

On the 28th day of February, 1918, I was taken down with rheumatism and lay in bed six weeks unable to move. As soon as I was able to get up and around, I went to take mud baths which helped to some extent. I was still unable to raise my hands and had considerable trouble in getting around when I discovered Natski Blood Purifier at Or. Johnson's Drug Store. After taking a few bottles of this medicine I felt a decided change for the better and at the present time I am able to do any of the work that has to be done in the store. Try it my friend and be convinced.

F. B. EAGER.

### MOWEAQUA FARMER CONVINCED

To whom it may concern: I have suffered for ten years with rheumatism and for 2 years before this spring, I could not put on my coat and vest without help and for months I took osetopath and electric treatment and was not helped. In the spring of this year Natski Blood Purifier was recommended to me, and after taking three and one-half bottles all rheumatic pains left me and while I have continued the occasional use of it since and have had no recurrence; have done any kind of harvesting, baling hay and other heavy work about the farm, which I had not been able to do for two or three years.

ADAM ELLRICH.

Your local druggist has purchased a supply of Natski Blood Purifier for your community. Go to him today for your first bottle. If he cannot supply you, write direct to the Company for it. Don't delay another moment, when you can so easily have relief. What it has done for others it will do for you.

Price \$1.50 per bottle.

## ILLINOIS WOMAN'S COLLEGE NOTES

The Sophomores gave the Seniors a charming party Saturday evening. Quite the feature of the evening was the quaint little oeretta "Seven Old Ladies of Laverdard Town," with its story of the seven husbands who had quarreled with their wives and had been changed by a fairy into a warworks exhibition. Fragments of the most delightful songs are still heard in the college halls.

Dr. Collins led the Y. W. C. A. meeting Sunday, upon the subject, "Service." He emphasized the social teachings of Jesus which preach, preeminently, the doctrine of love and service. Miss Maersta Poole sang.

Two of the Portmanteau plays, "The Trimplet" and "Nevertheless" were presented by the Dramatic Club last Monday night. "The Trimplet" is an exquisite blending of the real and unreal in a whimsical and rather elusive allegory, while "Nevertheless," a story about a little girl, a little boy, and a burglar, combines an undertone of seriousness with a spirit of playfulness and delicate humor. The plays were supervised by Miss Constance McCammon, head of the Expression Department.

On account of the coal shortage.

the four society halls have been closed until after the Christmas vacation. The societies held a most interesting joint meeting in the social room, Tuesday afternoon.

The first of a series of classes in Camp Fire Guardianship was conducted by Miss Bowman in the social room on Wednesday evening. The Illinois College girls have also joined the class. The second meeting will be held after the holidays.

Miss Ruth Harper has been elected May Day chairman. She will make plans soon after vacation for the annual May Fete. Elections were also held for the prettiest, the wittiest, the most representative, and the most popular girls in school, but the results of these elections will not be made public until the pictures of the four girls appear in the "Illinoise."

Mrs. H. B. Lusch of Chicago, sister of Miss Amy Mothershead, former dean of the college, has presented the Mothershead Memorial Library with some thirty volumes of much needed books. Almost every department of the school has been benefitted by this addition, and the whole college appreciates Mrs. Lusch's gift.

Miss Nancy Grace Miles of Virginia, was a week-end guest of Miss Leatha Bunting. Miss Miles is an alumna of the college. Mr. Ralph Williams of Decatur was here Sunday visiting Miss Lorraine Sylvester.

Miss Mariam Houghton of Petersburg, a former student here was the guest of Miss Mary Bishop over the week end.

Miss Cora Jane Stroheker, who is attending the Normal University at Bloomington, visited Miss Margaret Watson Thursday.

Mrs. Phil Sipple of Pekin, was here visiting her daughter over the week end.

Miss Janette Powell, a member of the faculty of the college, gave several Christmas readings at the December meeting of the Mound Woman's Club.

## THE WAR CRIPPLED 800,000 BRITONS

Five Per Cent of Workers In England Disabled, Records Show

From Baltimore Sun.  
London — More than eight hundred thousand Englishmen are permanently disabled as a result of war, according to the official estimate just given out here. This figure represents about five per cent of the total number of workers in the entire country. A request has been sent broadcast to every employer who has work for more than ten men asking him to employ partly disabled soldiers to a number not less than 5 per cent of his total force. Already approximately seven eighths have found employment, but there remain one hundred thousand who still are searching for employment.

## Dance Music on the Gulbransen assures a Successful Party

You will need to do some entertaining this fall and winter. Everybody wants to dance. Consider the help you will get from a Gulbransen Player-Piano.

You can always depend upon the Gulbransen for good dance music—the latest jazz songs, the old favorites. It offers a larger repertoire than any orchestra.

Its full piano tone is ample and inspiring. It makes you independent of hired talent, saves you money, keeps your parties delightfully informal.

And everybody can play the Gulbransen with all the zip and swing you could ask. It is quite the thing to take a turn at it while resting from dancing. The Gulbransen is so Easy to Play it will not tire you.

In fact, a tiny baby once crept up to the Gulbransen and, so gently do the pedals operate, the baby played it just as shown in the picture below. That is where they got the idea for their trade mark.

But the Gulbransen is not only easy to pedal. It is easy to play well, expressively, sympathetically, brilliantly—as suits the occasion. It gives you a new idea of player-pianos.

Go to the Gulbransen dealer and try a Gulbransen. You will find him by the Baby at the Pedals in his window.

Try some of these popular dance songs. The Gulbransen dealer has them. They sound particularly well on the Gulbransen. You ought to know them.

# WHY NOT MAKE IT AN EVERY--MEMBER CHRISTMAS

BY PURCHASING NOW AN

Apperson "Eight" or Auburn "Beauty Six"

## The D. N. James Auto Co

### Has Opened Its New Salesroom, Office and Garage

In the Scott Block, West State Street, Jacksonville, Ill.

*and hereby extends a cordial invitation to the public to call*

Aside from being distributors in this territory for the "Apperson," America's one manufactured custom-made car; the Auburn "Beauty Six", and the Oneida, one of the world's greatest trucks, with ample room for their display, we shall carry a full line of tires, supplies and accessories, and operate an up-to-date repair shop.

## THE "APPERSON EIGHT"

The Eight with Eighty Less Parts  
Power Comfort Beauty  
You Rest as You Ride in the Apperson

Apperson power is more than sufficient to get you anywhere you want to go over all used roads and, more than that, is daily making new roads where motor car has never traveled before. Mechanical design and manufacture of an Apperson are such that the greatest possible amount of power developed is transmitted to the wheels. Result: Power economy.

You rest as you ride in an Apperson. The design of the seats, the depth of upholstery, the cushioning effect of the springs, the oversized tires, all combine to make the Apperson a car of relaxation. The Apperson is essentially the easiest car to drive—economy of effort. The lines of the Apperson were designed by the most experienced car designers. Result: Straight lines, angles, and curves flow into a beautiful entirety which is most pleasing.

The driver's requirements designed the front compartment of the Apperson.

A cosmopolitan car—Hoosier ruggedness with metropolitan style.

Spacious tonneau—ample knee room—relaxation—comfort.

Knowledge of motor building made the Apperson Brothers motor builders for the government.

Ease of control makes the Apperson the choice of women drivers.

You can travel as fast in an Apperson as safety permits.

There are but two cam gears and one cam shaft in the Apperson.

Other cars don't pass the Apperson on country road or city boulevard.

"The Eight with Eighty Less Parts" is really but a four-cylinder engine with an additional cylinder block and its component parts. An extremely light-weight car for the power developed—the Apperson gives maximum mileage with minimum oil and gasoline consumption.

Ample protection is provided against inclement weather. The storm curtains are attached from within and open with the doors. The visibility thru the curtains when in place is excellent.

Comfort idealized—that alone describes Apperson riding joy. You can circle with your 130-inch wheelbase Apperson in 38½ feet.

The Apperson glides in high from 1 to 40 miles in 20 seconds.

The Apperson can be brought to a dead stop from a 40-mile speed in four seconds.

## THE AUBURN "BEAUTY SIX"

The Realization of Ideals  
Incomparably Beautiful  
Car it will Delight You to Own

The veteran experience of Auburn designers stood them in good stead in the production of their daring masterpiece. It is idealistic, yet chastened—comfortably beautiful and beautifully comfortable. For instance, you will find comfort to the fullest degree in the unusually long wheel base, in the skillful balance of car weight, in the low center of gravity preventing side sway, in the extra-length semi-elliptical springs, in the double-decked seat cushions with multi-inch upholstery, in the natural shape of the seat backs.

The built-in comfort of the Beauty-Six is immediately apparent. It represents the best thought of twenty years' experience—and yet it is comfort appeared in the newest mode. Follow with your eyes the straight line of the bonnet. See how happily it merges with and is continued by the bevel edge of the body rail. Look at the cowed front seats, the slight rake of the tonneau, the graceful sweep of the fenders and low running boards—all lend irresistible beauty to the Beauty-Six.

Women especially appreciate the Auburn's sensible running boards and the extremely wide and low-cut doors, making an easy, graceful entrance and exit a simple matter.

There is plenty of leg room in the Beauty-Six too, and the gear shift lever and emergency brake can be reached with a minimum of effort. Glance at the tonneau and note the rear seat, which is forty-eight inches wide. Surely here is room for three full-sized adults.

Note, too, the French plaited upholstery

without buttons—just one of many fine points of finish and appointments.

There is an instant pride about the Beauty-Six—a delight in possession that you would never find in just an ordinary car. And your pleasure in its ownership will be continually heightened by its super-service, because the Auburn Beauty-Six has the deep, underlying beauty of chassis construction which is the primary requisite for motor car enjoyment.

## The "Oneida" Truck

Men who Know Motor Trucks Best Appreciate Oneida  
Quality Most.

Six Models—A Truck for Every Purpose

May not we Demonstrate Oneida Superiority to You?

The Oneida Truck was designed especially to fulfill the great mission the motor truck has before it today. Its building has been a matter of years—not months. It represents the creation of an ideal.

Engineering skill, second to none, has experimented, builded and rebuildled. Designs have been slowly developed, tested, proved and perfected.

Materials have been carefully chosen with but one idea in

mind—to provide strength and durability not only for heavy loads and hard usage, but to withstand those sudden strains and unusually severe demands to which every motor truck is so often subject.

The result is a master truck—a truck of which Oneida engineering genius may well be proud.

Powered to meet every emergency of load and road, dependable to a degree that makes its service unfailing, econom-

ically efficient beyond usual motor truck performance, it stands as one of America's greatest trucks

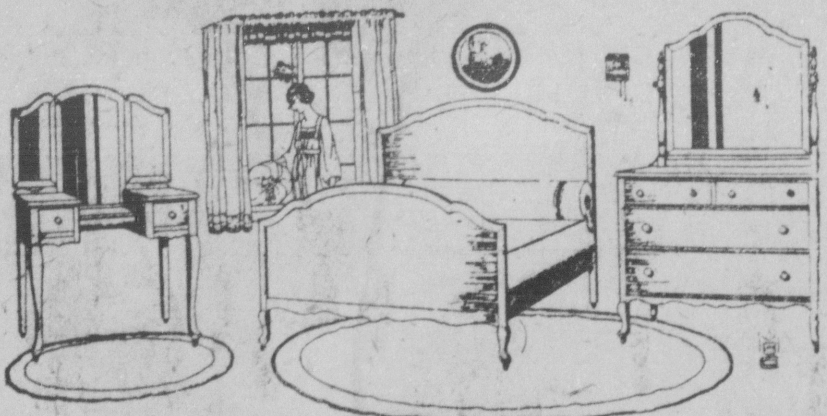

Strength, stamina and ruggedness have been built into the Oneida without sacrificing refinement of design or beauty of lines. Not only does it represent remarkable truck service, but at all times it is a worthy reflection of any man's business.

Wherever a real truck is demanded the Oneida has earned the right of first consideration.

## The Story of Mauvaisterre Creek

The suggestion the new lake be called Mauvaisterre has raised the question as to the derivation of the name of the creek which flows on two sides of Jacksonville. The word is a combination of two French words and is not, as is frequently said, of Indian derivation. The name of the creek as it appears on earliest records is Riviere Mauvaisterre. "Mauvaisterre," translated into English means bad, evil, good-for-nothing, noisome, scrubby, shabby, or unwholesome, and terre being earth, land or ground. The name therefore might be rendered into English as the River of the Bad Land, but early French writers have it as the River of Barren Land.

The Mauvaisterre, like the Mississippi, Illinois and many other streams in the old Illinois country was named by French-Canadian missionaries, voyageurs, courier du bois, or fur traders. These advance agents of civilization in the Upper Mississippi Valley pushed their canoes into, or thru all its streams. The only explanation of the strange misnomer applied to our creek is that the good-for-nothing, bad, scrubby or shabby appearance of the land near its mouth or of the barren hillsides along its lower channel gave those who christened it the idea that it was surrounded by bad or barren land.

Certainly the fertile fields along its upper reaches, which probably were never seen by the early French, would not have been called mauvaisterre. Edgar Lee Masters lines:

"Small muddy waters flanked by bottom lands  
So fat of fertile stuff the grossest weeds  
Thrive thriftier than in Egypt"

describe the Valley of the Mauvaisterre much more accurately than does the name.

Just who named the creek or when it was first called Riviere Mauvaisterre is not known.

Father Jacques Marquette who accompanied Louis Joliet on his exploring expedition thru the Illinois river in the summer of 1673 wrote of the Valley of the Illinois in his journal, "We have never seen anything like this river, for the richness of the soil, the prairies, the woods." The first white men to explore the Illinois river did not consider its valley mauvaisterre.

Edgar Lee Masters agreed with Marquette when he wrote: "Upon a time 'black soil' was poured  
Over your surface as the cook  
Pours chocolate on a cake  
So you are fertile, never a land  
So rich."

Marquette did not indicate the Mauvaisterre on his curious though remarkably accurate map of the country he explored nor does it appear on maps printed prior to 1820. In 1820, 1821 and 1822, United States Surveyors surveyed the Valley of the Mauvaisterre and indicated in their field books the course of the Mauvaisterre Creek, and maps of Illinois published since the first surveys show the creek. The American surveyors changed the French river into a creek but recorded its name as two words. The names of many small streams were Anglicised by the surveyors. Riviere La Pomme became Apple Creek, Riviere La Bellansine became Ballance Creek and later came to be known as Indian Creek, while the Mouse (Moss) River of the French became Sandy Creek. The French called these streams rivers because they carried as much water as many of the rivers of France, as much as some of the rivers made world famous by the Great War. Many of the creeks of Illinois are as large streams as some of the so-called rivers of Southwestern United States.

While the Mauvaisterre was not mapped before 1820 its name appears in official records and elsewhere at earlier dates.

In the record of the Court of the District of Cahokia, now on file in the Court House at Belleville, Illinois, appears the following:

"At a Court sitting in special session, July 13, 1786, M. M. Jean Bte. La Croix, President, Ant Girardin, Louis Chatel, Joseph Lapance, Magistrates, Louis Marchand, Plaintiff vs. Laurent Hamelin, Defendant."

"The plaintiff produced Claude Paneton, who, after he had made oath, said that he knew that the said Marchand was pledged to M. Duchenaud to go from the Mauvaisterre to Peoria for 60 livres."

The suit was undoubtedly a contention between fur-traders who were gathering pelts along the Illinois river.

Victor Collet, a Frenchman of high position, visited the Illinois Valley in 1796 and the report of his journey was printed in French and English. In his inaccurate report appears:

"The eastern side of the river (Illinois) is bordered by natural meadows to a great extent, the land is very fertile, and watered by a multitude of small rivulets which are never dry."

"Eighteen miles farther up the river is Mine river, called by the Canadians Bad Land (Mauvaisterre). During this space the aspect of the country continues the same; on the east lie natural meadows, which are sometimes nine, twelve or fifteen miles broad, on the west is a chain of small hills, that runs parallel with the course of the river. Mine river is not more than fifty yards wide at its mouth; its current is very rapid and its banks on each side are low, but rise afterwards gradually. The lands along this river are of very fine quality, particularly for corn and pasture."

Mr. Collet got the names of the tributaries of the Illinois river mixed a bit. The Mine River of the French is the present Crocker Creek flowing into the Illinois from the north-west. In 1812 Ninian Edwards, Governor of Illinois Territory, had prepared for the War Department a description of the Illinois river and its tributaries.

"The first river in going up the Illinois River, on the south side, is the Fouchai River (Otter Creek in Jersey county). The River Maka-pinn (Macopin) is two miles above the Fouchai. On the south side is the Lionoise (a creek in Greene county). On the same side is La Pomme or Apple river. On the north side is River Chabot (which seems to have since disappeared). Mouse River (Sandy Creek) on the south side is one day's march to the Mississippi. On the north side is Blue River. Above Blue River is Pierre a la Fleche, or Arrowstone River (McGhee's Creek). Mauvaisterre River is on the south side. La Bellansine (later Ballance Creek, now Indian Creek) is four leagues above the Mauvaisterre. Mine river (Crooked Creek) on the north side, is two leagues above. Four leagues above it La Riviere a Bordelle, or Brothel River (Sugar Creek)."

On the south side is Sain-que-mon River which extends to Wocas near Vincennes, and on its branches were formerly Kee-kah-oo villages."

Governor Edwards' geographical description also other tributaries entering the Illinois river above the Sangamon. One river they left for future discovery so that Edgar Lee Masters might have opportunity to make it world famous by his "Spoon River Anthology."

When white men first came to Morgan county to make homes they located in the forests along the Mauvaisterre and its tributaries. In the Autumn of 1819 Seymour Kellogg and Elisha Kellogg, brothers, with their large families and Charles Collins located near the north fork of the Mauvaisterre, within a few miles of the site of Antioch church, built two cabins and became our county's first white settlers. Early in 1820 Isaac Fort Roe and Jeddediah Webster built cabins in Diamond Grove. Later in the

year Isaac Reeve and his large family also settled in Diamond Grove, but chose a location in its southern edge nearer Sandy than Mauvaisterre Creek.

In the same year James Deaton and several others located along Mauvaisterre Creek between the Gravel Springs and the James school house of today. In the autumn of 1820 or spring of 1821 Dr. George Cadwell, a state senator. Located on Cadwell's Branch of Willow Branch of the Mauvaisterre, between Olmsted's (now Allinson's Mound) and the Point church of today and was soon joined by other settlers.

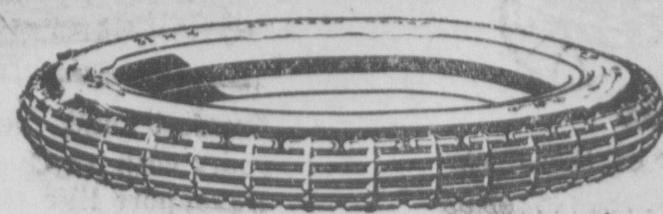

About the same time settlements were made on the Mauvaisterre near the present Excelsior and also on the Illinois river near the mouth of the Creek, near the Naples of today.

The settlements along the Mauvaisterre, Deaton's, Diamond Grove the North Fork, Cadwell's Excelsior and Naples were the most important in the county until after the county seat was located in Jacksonville in 1825 and when Jacksonville was platted it was surrounded on three sides by the Mauvaisterre and its branch now known as the Town Brook.

The name Mauvaisterre of two words in the course of time became Mauvaisterre and later the letter e at the end of the word Mauvaisterre has been dropped and the name spelled Mauvaisterre. This is not so bad, altho the spelling of Mauvaisterre should be preserved in a community which often boasts of its learning and education, but with the years the pronunciation of the termination of the name has too often been corrupted into "star." We might well preserve the French spelling of the name and eliminate the "star" in pronouncing it.

Perhaps the new lake should be named Mauvaisterre. In view of the fact that the dam which makes the lake was constructed exactly a century after the first white settlers located in this community it might be named Centennial Lake and thus serve the double purpose of providing a water supply and a recreation spot for Jacksonville and a monument to the pioneer settlers of the county whose taming of the wilderness made possible the organization of Morgan county, whose centennial will be in 1923, and the founding of Jacksonville which

# "SHOP EARLY"

Has Been the Slogan for Many Years

"SHOPPING EARLY" has meant greater satisfaction to pa-  
trons. It gives the buyer more time to examine prospec-  
tive purchase and affords the salesman better opportunity  
to give service.

"SHOPPING EARLY" this year means much more—conditions  
have been such that for a long time it has been impossible  
to obtain many of the desired articles on re-orders.

AND NOW, with the almost certain prospect of fewer hours  
allowed each day in which to do your gift buying because  
of the fuel shortage, the real significance of the "SHOP  
EARLY" slogan will be appreciated.

EVERY READER of this advertisement knows from personal  
experience in past years what procrastination in gift buy-  
ing means, and has vowed "never again." So why not  
visit us tomorrow?

## FOURTEENTH CENSUS TO BE MOST COMPLETE

Information Taken By Census Officials Will Be Considered Confidential—Farm Questions.

The Fourteenth Decennial Census, to which President Wilson has called the attention of the Nation in his Proclamation just made public, is to be the biggest, best and most complete census of the United States ever taken if the plans of the Census Bureau do not go awry.

Director of Census Sam L. Rogers has announced that everything is in readiness to begin the canvassing campaign that during the month of January, 1920, will cover every mansion, every cottage and every hut in the country. An army of more than 87,000 enumerators, under the direction of 372 census supervisors will be engaged in making the count. Every person in the land will be enumerated and the names, ages, birthplaces and occupations of all Uncle Sam's nieces and nephews will be set down and forwarded to Washington.

Many other questions concerning home tenure, citizenship, marital status, literacy, sex, color, and race are contained in the population schedule which the enumerators will fill out from the answers given them.

Farm Questions Important. Farmers also will be asked the questions contained in the agriculture schedule relating to their farms. These questions cover farm tenure, farm products, values of farm lands, buildings, implements and improvements, field crops, garden products, farm expenses, live stock, poultry, beef, dairy products, improved and un-

improved land, both drainage and irrigation, and the number of acres in each of the various crops. The census will also be taken of the number of automobiles and tractors on farms. Questions as to telephones and electric light, gas and water plants are also included in the group of questions which will under the general heading of "Farm Facilities" the purpose of the government in collecting information of this character being to show the various improvements installed on farms during the past decade.

The Census Bureau desires to emphasize that the information gathered in the census is for general statistical purposes only and that such information cannot be used as a basis for taxation. Nor can such information be used to harm any person in any way. This is pointed out by the president's proclamation.

As a matter of fact the identity of individuals is lost as soon as the filled out schedules are received at Washington. For upon reaching there the information is transferred from the sheets to cards. This is done by machinery and names are discarded entirely. Moreover, every person connected with the taking of the census is prohibited by Federal Law from divulging any information given them in the performance of their duties.

The Bureau of the Census has always had the willing cooperation of the public in the past and confidently looks forward to that same spirit of cooperation for the Census of 1920.

From Punch, London.

As a result of attending a spiritualistic seance a man is reported to have picked four winners in a dream. Only the other day, after a supper of Welsh rabbit, a gentleman tried to back a 9-legged green-and-yellow elephant, but the animal was warned off the course by the stewards.

## HELP IN THE FIGHT; BUY XMAS SEALS

Back in the old days when folks slept with their windows closed tightly, believing night air was dangerous, consumption was thought to be absolutely fatal. Our forefathers shook their heads solemnly, called it the will of God, and the unfortunate victim was left to his fate.

The Illinois Tuberculosis Association and its many local organizations affiliated with it in company with more than 1,000 similar organizations in the United States are conducting a nation wide fight against tuberculosis. To finance the work thru-out the coming year more than 10,000,000 Red Cross Seals will be sold in Illinois during December. The quota of seals for the nation is over 650,000,000.

Science knows a lot more about tuberculosis now than it did several decades ago. There is no such morbid thought about the affliction today, for medical research has proved that tuberculosis is both preventable and curable. It blazons abroad the fact that much of the suffering caused by this disease is wholly unnecessary. Intelligent hygienic care of one's body and right living are the strongest factors in keeping this menace away from one's door.

But the hopeful aspect held out to the tubercular sufferer is one of medical science's chief contributions to humanity.

A verdict of tuberculosis from one's doctor does not imply a death warrant. It does mean, however, that a radical change in one's way of living must be made. "Chasing the cure" means adopting Nature's own method. It means abundance of pure air, sunlight, good food, rest and a good cheerful and contented mind all under the supervision of a competent physician.

All these things can best be obtained in a well-conducted sanatorium. If it is impossible for the patient to go there, he should attend the nearest tuberculosis dispensary clinic regularly.

Public health experts all over the country report an alarming amount of tuberculosis. It is claiming 150,000 lives yearly and over 1,000,000 persons in the United States are now victims of it. Buying and using Red Cross Christmas seals is one way in which you can fight the white plague.

## A BETTER WAY

From London Answers.  
The sergeant major was a bit of a martinet—it does happen sometimes—and was constantly finding fault with the slightest things.

One day, as he sat in his room in the barracks, he saw a private pass in full uniform with a bucket.

This roused the sergeant major to a fury, and he promptly dashed to the door and halted the private.

"Where are you going?"  
"To fetch some water, sir," replied the man.

"What!" yelled the sergeant major. "In those trousers?"  
"No sir; in the bucket."

## REASSURING

From Blighty, London.  
The doctor says he'll let me know in a week whether I'm going to live or not.

"And what are you going to do in the meantime?"  
"He told me to take complete rest and, above all, not to worry about anything."

## KENDALL TO TALK TO WOMEN AT INSTITUTE

Notes from Other Counties in Illinois Which Have the Home Bureau.

On Wednesday morning of next week, Mr. George B. Kendall, Farm Adviser of Morgan County, will talk to the women at the Home Economics Institute, which is to be held at the Woman's College. Mr. Kendall and his work is well known in the county and the women should be very much interested in hearing what he has to say about the "Phases of the Farm Bureau of Interest to Women." Farm Bureaus have proven their worth to the men of the state who have taken advantage of the opportunity to improve their methods and to try new implements, which others have found to be better than what they had used before. The Home Bureau is a similar organization for the women, but it is useful not only to farm women but also to those living in towns and cities. This organization is backed by the University of Illinois and capable women are on the staff to further the work in the state.

"Miss Swan in Livingston and State Leader in the Extension Department of the University will tell about the organization of the Home Bureau on next Tuesday afternoon. The following quotations are taken from the "Extension News," and an idea of some of the things which are being done by the Home Bureau in other counties can be gained.

"Kankakee county reports a community rest room established by the Home Bureau at Mokena."

ports excellent work being done in their local units by the nurses who attended the school in clothing."

"Clothing for children is being emphasized in Kankakee county by lectures on 'Food and Clothing for Children,' illustrated by government charts and an exhibit loaned from one of the local stores.

"Miss Swan in Livingston county has closed a series of ten millinery lessons in Fairbury."

"In Adams county, the Ellington Unit holds a meeting each month which they call the Help-ers Day. They go to the home of an especially busy member and help her with her work."

"That education is the greatest single human need, that it may be secured during the hours of labor as certainly as during the hours of leisure, that it may result from well directed toil as surely as from the study of books, that it is not entirely dependent upon schools and colleges and organized institutions of learning, that it is a life-long process and the most certain means by which men become free, have come to be cardinal doctrines among thoughtful people. That to the multiplication and direction of agencies in every great variety—official and non-official—for the promotion of the education of all the people, adults as well as children, furnishes the best possible evidence that as a nation we are seeking to realize our spiritual inheritance." A. L. Sutherland.

## 250 FRIENDS ATTEND ANNIVERSARY BANQUET TO CHARLES F. JOY

St. Louis Recorder of Deeds and former Missouri Congressman given complimentary dinner in honor of his seventieth birthday—Born in Morgan County in 1849.

The following account of a dinner given in St. Louis last Thursday in honor of Charles F. Joy of that city will be of interest to many people here where he is well known. Mr. Joy was born in this country in 1849 and is related to Lyman F. Joy residing near Chapin. Mr. L. F. Joy was unable to accept an invitation to be present and the only one from this vicinity in attendance at the dinner was H. P. Joy of near Chapin, a nephew of the guest of honor. Mr. Joy has a number of other relatives residing in this vicinity also. The Globe-Democrat yesterday carried the following article regarding the banquet.

An ability to make and keep true personal friends and to retain the unlimited confidence of the public thru more than a quarter of a century service in public office, were pronounced two of the greatest and noblest assets in the life of Charles F. Joy, Recorder of Deeds and former congressman, by various speakers at a complimentary dinner, given in honor of his 70th birthday in the ballroom of the Hotel Statler Thursday night.

The program of speeches was opened by Toastmaster Edward Hidden, who immediately sounded the keynote of the evening by quoting a sentence from the Holy Scriptures, which he had slightly changed to suit the occasion.

"The sacred book says," Hidden said, "When the morning stars are singing together, all children of creation are shouting for joy." Tonight, however, we will say "When the evening stars are singing together, all sons of creation are shouting for Charles F. Joy."

Hidden then gave a brief biography of Joy's life starting with his ancestors who, he said, had come from Ireland in 1637 and settled in Boston. Later they removed to Morgan county, Ill., where Charles F. Joy was born, on December 11, 1849. In 1870 Joy entered Yale University as a freshman, and in 1875 he came to St. Louis, where he opened a law office. In 1892 Joy

was elected to Congress on the Republican ticket and was re-elected four times. Since 1906 he has been Recorder of Deeds.

The dinner was attended by more than 250 friends and admirers of the Recorder, among them white-haired friends of his youth, who had watched his career from the day of his arrival in this city in 1875, and who last night braved the cold December air to join in the general tribute paid to him at one of the grandest and most memorable testimonial affairs ever given to a St. Louisan in recent years.

The gathering was, as State Senator A. E. L. Gardner of St. Louis County fittingly expressed it, "a monument that few men are able to build."

Many city officials and practically all members of the Board of Aldermen were present. Circuit Judges, lawyers and prominent politicians were seen mingling with the crowd and every employee of the Recorder of Deeds' office had a seat at one of the tables. Among some of Joy's old friends were Col. Nicholas M. Bell and Henry Clay Grenner, who was collector of internal revenue under the Harrison administration.

Many Elks Present. The fact that Joy is past exalted ruler of the Elks resulted in a large turnout of the members of the St. Louis Elks' lodge, including the celebrated Elks' Quartet, which prominently figured on the entertainment program.

Integrity Compared to Globe-Democrat. Speaking of Joy's experiences in public life, Hidden compared his integrity with that of the St. Louis Globe-Democrat and complimented the management of this newspaper on its absorption of the St. Louis Republic.

"This absorption," he said, "will give to our morning newspaper the greatest opportunity to build up a morning paper to the highest point of greatness and usefulness."

"If the Globe-Democrat can succeed to hold its present readers and acquire those of the Republic, we shall have a far greater paper, that will make us better citizens."

That a marked similarity exists between the career of a man in public life and that of a newspaper was also explained by E. Lansing Ray, president of the Globe-Democrat, who was called upon to speak by Toastmaster Hidden.

Ray warmly congratulated Joy and said that the reason why he (Ray) occupied a seat next to the guest of honor, probably was to "show how young the man of 70 really is, as compared with a young man."

To have reached the age of 70 and to be still in a condition as that of Joy's, Ray continued, was in itself a distinction, but to hold office for more than a quarter of a century and still retain the unlimited confidence of the people, was an achievement unsurpassed.

"A public office is a public trust," the speaker continued, "and so is the conduct of a newspaper a public trust." "A newspaper holds no elective office, yet if it is not chosen by the people it does not stand." "A newspaper has no fixed period of service, yet if it fails in its duties, the public will fix its period of existence."

FOUND HIS HORSE

A day or two since, John Connors of Prentice was in the region of Alexander and had occasion to send his horse home and turned the animal loose, thinking it would wisely seek its proper place but instead the creature was wilful, so Mr. Connors advertised for it and soon located it on the farm of W. H. Mosely, east of Pisgah station, where it was kindly cared for, awaiting its proper owner.
